“ IACI is a well-respected, influential organization shaping important policy in Idaho’s economy. As one of its newer members, IACI provides us the opportunity to collaborate with other business and community leaders to formulate strategies and reach consensus around challenging topics facing our state.

“ We belong to IACI because it keeps us advised about all state government activities in Boise that are likely to impact our business. This includes positive as well as adverse impacts. This is especially helpful during the legislative session.

“ Membership in IACI is critical to my business. Every segment of Idaho’s economy is represented in the association – whether Fortune 500 or small business, privately or publicly held. IACI tracks and vets all policy decisions in the state of Idaho. I know that the information I receive from IACI’s staff is timely, accurate, and viewed through the lens of all of Idaho’s business interests.

Intermountain Gas Company has been a long standing board member of IACI because of the strength of the organization in shaping policy that has positive impacts for the business community. We have been involved in similar organizations in other states but have not seen one that has the ear of the elected officials and policy makers like IACI does. IACI's efforts makes Idaho a great place to do business.

IACI is the only statewide organization that provides Idaho's business community the opportunity to have a conversation, share challenges, solve problems, and, if necessary, coordinate advocacy efforts that require a legislative or regulatory solution. Our economy is connected and we depend on each other. The more we communicate, the greater the opportunities are for Idaho.

As a major business in Idaho, being an IACI member is a critically strategic part of our engagement in public policy in the state. IACI is unquestionably the voice of Idaho's business community to elected officials and agency personnel. We recognize the good fortune of first, doing business in Idaho, and second being a member of IACI.
